Cumulative Subject Index (Volumes 1–21)

2,3,7,8-Tetrachlorodibenzo-p-dioxin (2,3,7,8-TCDD), overview, 28 (11)*
2,4,5-Trichlorophenoxyacetic acid (2,4,5-T), overview, 28 (11)
2,4-Dichlorophenoxyacetic acid (2,4-D), 28 (11)
AIDS, see Acquired immunodeficiency syndrome (AIDS)
Abdominal aortic aneurysms, epidemiology of, 207 (21)
Abortion, effects on subsequent reproduction, 66 (4)*
Acids, fatty, marine n-3, consumption of during pregnancy as a possible determinant of birth weight, 399 (15)
Acquired dysfunction, nondementing, methodology and, epidemiologic considerations in studies of cognitive function in the elderly, 1 (13)
Acquired immunodeficiency syndrome (AIDS), 1 (7)
Acquired immunodeficiency syndrome (AIDS), HIV infection and, (Update), 222 (11)
Acquired immunodeficiency syndrome and multidrug resistance, tuberculosis control: the relevance of classic principles in an era of, 52 (18)
Acquired immunodeficiency syndrome, surveillance of, in Africa, 403 (16)
Activity, physical, physical fitness, and sudden cardiac death, 37 (14)
Acute respiratory illness and infection: studies of the community and family, 351 (16)
Acute respiratory infections, in children and adults, global perspective, 149 (12)
Adenocarcinomas of the uterine cervix: the epidemiology of an increasing problem, 486 (15)
Adenomas, colorectal, epidemiology of, 273 (16)
Adenomas, pituitary, 163 (3)
Adolescents, suicidal behaviors of, methodological issues relevant to epidemiologic investigations of, 228 (17)
Adult chronic disease, review of the evidence on fetal and early childhood antecedents of, 158 (18)
Adults, brain tumors in, etiology of, 382 (17)
African Kaposi’s sarcoma, epidemiology of, 178 (13)
Age-related cataracts, risk factors for, 336 (17)
Age-related maculopathy, epidemiology of, 347 (17)
Aged, see Elderly
Agnostists, beta, epidemiologic studies of, and asthma deaths, 173 (20)
Airways responsiveness, chronic obstructive lung disease and, 29 (10)
Alcohol consumption and risk of breast cancer: a review of the epidemiologic evidence, 133 (15)
Alcohol, pancreatic cancer and, 28 (8)
Allele frequencies in single gene disorders, population studies of: methodological and policy considerations, 52 (19)
Alzheimer disease, genetic epidemiology of, 107 (19)
Alzheimer’s disease and related dementia, genes and recent developments in the epidemiology of, 39 (17)
Alzheimer’s disease, epidemiology of, 59 (14)
Analysis of cohort studies, new techniques for the, 122 (20)
Analysis of genetic and environmental factors in family studies, 14 (19)
Analysis, statistical, of case-control studies, 33 (16)
Analytical studies of enamel fluorosis: methodological considerations, 233 (21)
Analytical, mathematical and, aspects of tracking, 165 (16)
Aneurysms, abdominal aortic, epidemiology of, 207 (21)
Anomalies, multiple congenital, monitoring for: an international perspective, 335 (16)
Antecedents, fetal and early childhood, of adult chronic disease, review of the evidence on, 158 (18)
Antibiotic resistance, child-care practices: effects of social change on the epidemiology of infectious diseases and, 10 (18)
Antibodies, islet cell, 182 (11)
Antigens, histocompatibility, 90 (3)
Antiinflammatory, nonsteroidal, drugs and colorectal cancer, 205 (18)
Anxiety disorders, progress in the epidemiology of, 32 (17)
Aortic aneurysms, abdominal, epidemiology of, 207 (21)
Apnea, sleep, obstructive, epidemiology of, 210 (16)
Application of the case-control method in the evaluation of screening, 102 (16)
Application, limitations in the, of case-control methodology, 65 (16)
Applications of the case-control method in genetic epidemiology, 134 (16)
Approaches for conducting large cohort studies, 91 (20)
Approaches to non-Mendelian inheritance, 44 (19)
Arsenic exposure, chronic, vascular effects of, 184 (16)
Arthritis, rheumatoid, (Update), 247 (12)
Arthritis, rheumatoid, adult and juvenile, 27 (3)
Aspects of tracking, mathematical and analytical, 165 (16)
Aspirate fluid, nipple, in epidemiologic studies of breast disease, 188 (15)
Aspirin, risks and benefits of taking, during pregnancy, 108 (12)
Asthma deaths, epidemiologic studies of beta agonists and, 173 (20)
Asthma, genetic epidemiology of, 129 (19)
Asthma, parasites and, 49 (7)
Atherosclerosis, see Cardiovascular disease, atherosclerotic
Atomic Bomb Casualty Commission, 184 (1)
Atopy, chronic obstructive lung disease and, 39 (10)
Attributable risk estimation in case-control studies, 51 (16)
Automated databases, use for pharmacoepidemiology research, 87 (12)
Banking, DNA, in epidemiologic studies, 156 (19)
Behaviors, suicidal, of adolescents, methodological issues relevant to epidemiologic investigations of, 228 (17)
Benefits and risks of mammographic screening for breast cancer, 101 (14)
Benign breast disease, epidemiology of, with special attention to histologic types, 310 (19)
Benign breast diseases, carcinoma in situ, and breast cancer risk, 177 (15)
Benign prostatic hyperplasia: antecedents and natural history, 131 (14)
Beta agonists, epidemiologic studies of, and asthma deaths, 173 (20)
Biologic specimen banks, design and use of, 56 (12)
Biomarker, cotinine as a, of environmental tobacco smoke

* Volume number in parentheses.
Breast cancer, radiation and other environmental exposures and, 157 (15)
Breast cancer, recent etiologic hypotheses concerning, 163 (15)
Breast cancer, reproductive factors and, 36 (15)
Breast cancer, tamoxifen for the primary prevention of: a review and critique of the concept and trial, 233 (15)
Breast cancer, thyroid diseases and, 16 (12)
Breast cancer: magnitude of the problem and descriptive epidemiology, 7 (15)
Breast cell proliferation, normal, estrogens, progestogens, and breast cancer risk, 17 (15)
Breast disease, benign, epidemiology of, with special attention to histologic types, 310 (19)
Breast disease, nipple aspirate fluid in epidemiologic studies of, 188 (15)
Breast diseases, benign, carcinoma in situ, and breast cancer risk, 177 (15)
Breast cancer of the, screening for, 244 (15)
Breast, multiple primary cancers involving the, 169 (15)
Caffeine, reproductive effects of: a review and theoretical analysis, 83 (14)
Campylobacter jejuni infections, 157 (5)
Cancer of the breast, screening for, 244 (15)
Cancer, bladder, 203 (3)
Cancer, brain, and leukemia and exposure to power-frequency (50- and 60-Hz) electric and magnetic fields, 273 (19)
Cancer, breast, (Update), 228 (12)
Cancer, breast, 74 (1)
Cancer, breast, alcohol consumption and risk of: a review of the epidemiologic evidence, 133 (15)

Cancer, breast, cigarette smoking and the risk of, 145 (15)
Cancer, breast, diet and, 120 (9)
Cancer, breast, diet, body size, and, 110 (15)
Cancer, breast, diethylstilbestrol (DES) and, 108 (15)
Cancer, breast, estrogen receptors and, 42 (8)
Cancer, breast, exogenous progestins and, 98 (15)
Cancer, breast, hormone receptors and, 209 (15)
Cancer, breast, mammographic parenchymal patterns and, 146 (9)
Cancer, breast, mammographic screening for, benefits and risks of, 101 (14)
Cancer, breast, risk, oral contraceptives in relation to, 80 (15)
Cancer, breast, tamoxifen for the primary prevention of: a review and critique of the concept and trial, 233 (15)
review and critique of the concept and trial, 233 (15)
Cancer, breast, thyroid disease and, 16 (12)
Cancer, breast: magnitude of the problem and descriptive epidemiology, 7 (15)
Cancer, cholesterol and, 192 (6)
Cancer, colon: a review of the epidemiology, 499 (15)
Cancer, colorectal, nonsteroidal antiinflammatory drugs and, 205 (18)
Cancer, dietary prevention of, (Update), 229 (11)
Cancer, dietary prevention of, 38 (5)
Cancer, electromagnetic fields and, methodological issues, (Update), 559 (15)
Cancer, electromagnetic fields and, methodological issues, 59 (11)
Cancer, gastric, decline in, 1 (8)
Cancer, gastric, occupational risk factors for: an overview, 218 (18)
Cancer, in children, 22 (7)
Cancer, laryngeal, 195 (2)
Cancer, lung, in nonsmokers, epidemiology and prevention of, 218 (20)
Cancer, lung, smoking and, 177 (5)
Cancer, ovarian, fertility drugs and, 237 (20)
Cancer, pancreatic, alcohol and, 28 (8)
Cancer, prostate, current perspective, 200 (13)
Cancer, risk factors for, in pet dogs, epidemiologic studies of, 204 (20)
Cancer, smoking and, 175 (9)
Cancer, testicular, epidemiology of, 433 (17)
Cancers, breast and ovarian, genetic epidemiology of, 69 (19)
Cancers, multiple primary, involving the breast, 169 (15)
Cannabis, role of in motor vehicle crashes, 222 (21)
Capture-recapture methods in epidemiology: methods and limitations, 243 (17)
Carcinogenesis, environmental, 19 (2)
Carcinoma in situ, benign breast diseases, and breast cancer risk, 177 (15)
Carcinoma, hepatocellular, hepatitis C-related, 180 (21)
Carcinoma, nasopharyngeal, etiologic of: a review, 464 (15)
Cardiac death, sudden, physical activity, physical fitness, and, 37 (14)
Cardiovascular disease risk, psychiatric illness and, 129 (17)
Cardiovascular disease, atherosclerotic, blood lipids and, 95 (9)
Cardiovascular disease, atherosclerotic, coronary arteriography and, 140 (6)
Cardiovascular disease, noncontraceptive estrogen use and, 80 (7)
Cardiovascular disease, relation to dehydroepiandrosterone and dehydroepiandrosterone sulfate, 267 (13)
Care, primary, settings, mental disorders in, epidemiology of, 182 (17)
Case definitions, developing, for symptom-based conditions: the problem of specificity, 148 (20)
Case registers and record-linkage studies in psychiatric epidemiology, the untapped potential of, 205 (17)
Case-control approach in vaccine evaluation, use of the: efficacy and adverse effects, 36 (21)
Case-control evaluations of treatment and program efficacy, 90 (16)
Case-control method, application of the, in the evaluation of screening, 102 (16)
Case-control method, applications of the, in genetic epidemiology, 134 (16)
Case-control method, future perspectives on the, 163 (16)
Case-control method, overview and historical perspective, 1 (16)
Case-control methodology, limitations in the application of, 65 (16)
Case-control methods, use of, for indirect estimation in demography, 124 (16)
Case-control studies, attributable risk estimation in, 51 (16)
Case-control studies, evaluating vaccination effectiveness and vaccine efficacy, by means of, 77 (16)
Case-control studies, exposure measurement in: reported methods and recommendations, 18 (16)
Case-control studies, occupational, 151 (16)
Case-control studies, statistical analysis of, 33 (16)
Case-control studies, use of, in outbreak investigations, 109 (16)
Cases and controls, selection of, 6 (16)
Cataracts, age related, risk factors for, 336 (17)
Cervix, uterine, adenocarcinomas of the: the epidemiology of: an increasing problem, 486 (15)
Change, longitudinal, in the heights of men and women: consequential effects on body mass index, 247 (21)
Chernobyl, 10 years after: health consequences, 187 (19)
Child-care practices: effects of social change on the epidemiology of infectious diseases and antibiotic resistance, 10 (18)
Childhood leukemia, with a focus on infants, epidemiology of, 243 (16)
Childhood, early, and fetal antecedents of adult chronic disease, review of the evidence on, 158 (18)
Children, otitis media in: frequency, risk factors, and research avenues, 444 (15)
Children, persistent diarrhea in: epidemiology, risk factors, pathophysiology, nutritional impact, and management, 222 (14)
Chlamydia trachomatis infections, sexually transmitted, 96 (5)
Cholesterol, cancer and, 192 (6)
Chorioncarcinoma, hydatidiform mole and, 52 (6)
Chronic arsenic exposure, vascular effects of, 184 (16)
Chronic disease, adult, review of the evidence on fetal and early childhood antecedents of, 158 (18)
Chronic disease, menopause: its epidemiology and potential association with, 287 (17)
Chronic fatigue syndrome, the epidemiology of, 139 (17)
Chronic obstructive lung disease, 29 (10)
Cigarette smoking and the risk of breast cancer, 145 (15)
Classic Kaposi's sarcoma, epidemiology of, 178 (13)
Classification subtypes, Revised European-American Lymphoma, epidemiology of the, 187 (20)
Cleft lip, nonsyndromic, and neural tube defects, genetic epidemiology of birth defects, 61 (19)
Cocaine use, maternal, during pregnancy and perinatal outcomes, 315 (16)
Cognitive function in the elderly, epidemiologic considerations in studies of, methodology and nondementing acquired dysfunction, 1 (13)
Cohort studies, approaches for conducting large, 91 (20)
Cohort studies, exposure measurement in: the challenges of prospective data collection, 43 (20)
Cohort studies, methodological issues for biomarkers and intermediate outcomes in, 29 (20)
Cohort studies, new techniques for the analysis of, 122 (20)
Cohort studies, occupational, developments in, 100 (20)
Cohort studies, outcomes in, 15 (20)
Cohort studies, perspective, 135 (20)
Cohort studies, population-based, 81 (20)
Cohort studies, use of computerized record linkage in, 112 (20)

Cryptococcal disease, emergence of: epidemiologic perspectives 100 years after its discovery, 303 (17)
Cryptosporidiosis, human, epidemiologic aspects of, and the role of waterborne transmission, 118 (18)
DNA banking in epidemiologic studies, 156 (19)
DNA markers, use of in search for disease susceptibility genes, epidemiologic approaches, 41 (14)
Data, prospective, collection, exposure measurement in cohort studies: the challenges of, 43 (20)
Databases, automated, use of for pharmacoepidemiology research, 87 (12)
Death, sudden cardiac, physical activity, physical fitness, and, 37 (14)
Deductive meta-analysis, demonstration of: ethanol intake and risk of myocardial infarction, 328 (15)
Definitions and determinants of handicap in people with disabilities, 228 (16)
Definitions, developing case, for symptom-based conditions: the problem of specificity, 148 (20)
Dehydroepiandrosterone and dehydroepiandrosterone sulfate, their relation to cardiovascular disease, 267 (13)
Dementia, related, and Alzheimer’s disease, genes and recent developments in the epidemiology of, 39 (17)
Demographic perspectives, inbreeding and diseases, 28 (13)
Demography, indirect estimation in, use of case-control methods for, 124 (16)
Dengue transmission, review of the factors modulating, 321 (17)
Depression, major, recent progress in the epidemiology of, 21 (17)
Depressive symptoms, maternal, and the risk of poor pregnancy outcome: review of the literature and preliminary findings, 165 (17)
Design and interpretation of vaccine field studies, 73 (21)
Determinants, definitions and, of handicap in people with disabilities, 228 (16)
Developing an integrated epidemiologic approach to emerging infectious diseases, 1 (18)
Developing case definitions for symptom-based conditions: the problem of specificity, 148 (20)
Developing countries, unintentional injuries in, epidemiology of a neglected problem, 228 (13)
Development of the multiple metabolic syndrome: an epidemiologic perspective, 157 (20)
Developmental epidemiology, 74 (17)
Developments in occupational cohort studies, 100 (20)
Diabetes mellitus, insulin-dependent, 49 (2)
Diabetes mellitus, insulin-dependent, molecular epidemiology of, 91 (19)
Diabetes mellitus, non-insulin-dependent, and obesity, 172 (11)
Diabetes mellitus, non-insulin-dependent, and public health aspects, 151 (11)
Diagnostic measures in psychiatry, recent developments for, 210 (17)
Diarrhea, persistent, in children: epidemiology, risk factors, pathophysiology, nutritional impact, and management, 222 (14)
Diet, body size, and breast cancer, 110 (15)
Diet, breast cancer and, 120 (9)
Diet, past, measurement of: review of previous and proposed methods, 177 (14)
Dietary prevention of cancer, (Update), 229 (11)
Diethylstilbestrol (DES) and breast cancer, 108 (15)
Disabilities, definitions and determinants of handicap in people with, 228 (16)
Disasters, health effects of, (Update), 192 (12)
Disasters, health effects of, 140 (3)
Disasters, review of psychiatric epidemiologic research on, 113 (17)
Disease prevention and public health, the future of, genetic epidemiology and, 175 (19)
Disease susceptibility genes, search for using DNA markers, epidemiologic approaches, 41 (12)

Diseases, inbreeding and, demographic, genetic, and epidemiologic perspectives, 28 (13)

Dogs, pet, risk factors for cancer in, epidemiologic studies of, 204 (20)

Dracunculiasis, 208 (5)

Dracunculiasis, eradication of, (Update), 316 (13)

Drinking water, magnesium in, and ischemic heart disease, 258 (19)

Drug users, injecting, hepatitis B viral infections among, epidemiologic approaches, 418 (16)

Drugs, fertility, and ovarian cancer, 237 (20)

Drugs, nonsteroidal antiinflammatory, and colorectal cancer, epidemiologic approaches, 41 (12)

Drinking water, magnesium in, and ischemic heart disease, 258 (19)

Dysfunction, nondementing acquired, methodology and, epidemiologic considerations in studies of cognitive function in the elderly, 1 (13)

Edward Jenner, scientist, not just a country doctor, 1 (14)

Elderly, high blood pressure in, 294 (13)

Elderly, preventive health care in, 48 (10)

Electric and magnetic fields, power-frequency (50- and 60-Hz), brain cancer and leukemia and exposure to, 273 (19)

Electromagnetic fields and cancer, methodological issues, (Update), 559 (15)

Electromagnetic fields and cancer, methodological issues, 59 (11)

Emergency of infectious diseases, impact of technology on the, 4 (18)

Emerging foodborne pathogens: Escherichia coli O157:H7 as a model of entry of a new pathogen into the food supply of the developed world, 29 (18)

Emerging infections: pandemic influenza, 64 (18)

Emerging infectious diseases, developing an integrated epidemiologic approach to, 1 (18)

Enamel fluorosis, analytical studies of: methodological considerations, 233 (21)

Encephalitis, Japanese, epidemiology of: prospects for prevention, 197 (14)

Encephalitis, St. Louis, 55 (1)

Endogenous hormones and breast cancer risk, 48 (15)

Endometriosis, pelvic, 167 (6)

Enterohemorrhagic Escherichia coli, E. coli O157:H7, and the associated hemolytic uremic syndrome, epidemiology of infections caused by, 60 (13)

Environment, gene-, interaction in epidemiologic research, 33 (19)

Environment, gene-, interaction, epidemiologic and genetic approaches in the study of: an overview of available methods, 137 (20)

Environmental exposures, radiation and other, and breast cancer, 157 (15)

Environmental tobacco smoke exposure, cotinine as a biomarker of, 188 (18)

Environmental, genetic and, factors in family studies, analysis of, 14 (19)

Eosinophilia-myalgia syndrome: coming to grips with a new illness, 16 (14)

Epidemic hysteria: a review of the published literature, 233 (19)

Epidemic, measles, 1989-1990, United States, (Update), 270 (14)

Epidemiologic and genetic approaches in the study of gene-environment interaction: an overview of available methods, 137 (20)

Epidemiologic aspects of human cryptosporidiosis and the role of waterborne transmission, 118 (18)

Epidemiologic methods in immunization programs, 99 (18)

Epidemiologic perspective, genetic linkage from an, 24 (19)

Epidemiologic perspectives, inbreeding and diseases, 28 (13)

Epidemiologic research, gene-environment interaction in, 33 (19)

Epidemiologic research, impact of the Human Genome Project on, 3 (19)

Epidemiologic studies of beta agonists and asthma deaths, 173 (20)

Epidemiologic studies of leukemia among persons under 25 years of age living near nuclear sites, 188 (21)

Epidemiologic studies of risk factors for cancer in pet dogs, 204 (20)

Epidemiologic studies, DNA banking in, 156 (19)

Epidemiologic uses of Medicare data, 319 (15)

Epidemiology and prevention of lung cancer in nonsmokers, 218 (20)

Epidemiology of abdominal aortic aneurysms, 207 (21)

Epidemiology of benign breast disease, with special attention to histologic types, 310 (19)

Smoking, lung cancer and, 177 (5)
Social change, child-care practices: effects of on the epidemiology of infectious diseases and antibiotic resistance, 10 (18)
Social class, measurement of, 87 (10)
Socioeconomic status, gender, and psychological disorders, work conditions as explanations for the relation between, 120 (17)
Spatial analytical methods and geographic information systems: use in health research and epidemiology, 143 (21)
Specificity, the problem of: developing case definitions for symptom-based conditions, 148 (20)
Specimen banks, biologic, design and use of, 56 (12)
Statistical analysis of case-control studies, 33 (16)
Status inconsistency, status of, 65 (10)
Streptococcal disease, group B, epidemiology of, 374 (16)
Stroke, (Update), 253 (12)
Stroke, 136 (2)
Sudden cardiac death, physical activity, physical fitness, and, 37 (14)
Sudden infant death syndrome (SIDS), (Update), 241 (12)
Sudden infant death syndrome (SIDS), 97 (2)
Sudden infant death syndrome (SIDS), botulism and, 45 (3)
Suicidal behaviors of adolescents, methodological issues relevant to epidemiologic investigations of, 228 (17)
Suicide, 51 (9)
Surveillance of acquired immunodeficiency syndrome in Africa, 403 (16)
Surveillance, public health, in the United States, 164 (10)
Survey nonresponse: advances in strategies for minimizing and adjusting for, 192 (17)
Surveys, cross-sectional, recall of psychiatric history in: implications for epidemiologic research, 221 (17)
Symptom-based conditions, developing case definitions for: the problem of specificity, 148 (20)
Syndrome, eosinophilia-myalgia: coming to grips with a new illness, 16 (14)
Syndrome, multiple metabolic, development of the: an epidemiologic perspective, 157 (20)
Tamoxifen for the primary prevention of breast cancer: a review and critique of the concept and trial, 233 (15)
Tampons, toxic shock syndrome and, 99 (13)
Techniques, new, for the analysis of cohort studies, 122 (20)
Technology, impact of, on the emergence of infectious diseases, 4 (18)
Testicular cancer, epidemiology of, 433 (17)

Epidemiol Rev Vol. 1–21, No. 2, 1999
Tetravalent rhesus rotavirus-based reassortant vaccine, a case study of: public health considerations for the introduction of new rotavirus vaccines for infants, 24 (21)

Therapy, estrogen replacement, and breast cancer risk, 66 (15)

Thyroid diseases, and breast cancer, 16 (12)

Tobacco smoke exposure, environmental, cotinine as a biomarker of, 188 (18)

Tobacco use and dependence, epidemiology of, 48 (17)

Toxic shock syndrome and tampons, 99 (13)

Toxoplasma infections, 204 (4)

Trachoma: the forgotten cause of blindness, 205 (19)

Tracking, mathematical and analytical aspects of, 165 (16)

Tracking, retaining and, cohort study members, 57 (20)

Transmission of bloodborne pathogens to health care workers, trends and patterns in the, 437 (16)

Transmission of hepatitis C virus: rates, routes, and cofactors, 137 (18)

Transmission, mother-to-child, of human immunodeficiency virus type 1, 149 (18)

Transmission, vertical, HIV infection in children and their mothers, epidemiology of, 143 (13)

Transmission, waterborne, epidemiologic aspects of human cryptosporidiosis and the role of, 118 (18)

Treatment and program efficacy, case-control evaluations of, 90 (16)

Trends and patterns in the transmission of bloodborne pathogens to health care workers, 437 (16)

Tribute to Alan S. Morrison, 3 (15)

Tuberculosis control: the relevance of classic principles in an era of acquired immunodeficiency syndrome and multidrug resistance, 52 (18)

Tuberculosis, in the United States, 79 (11)

Tumor, Wilm’s, etiology of, 415 (17)

Tumors, brain, in adults, etiology of, 382 (17)

Unintentional injuries in developing countries, epidemiology of a neglected problem, 228 (13)

Use of case-control methods for indirect estimation in demography, 124 (16)

Use of case-control studies in outbreak investigations, 109 (16)

Use of computerized record linkage in cohort studies, 112 (20)

Use of the case-control approach in vaccine evaluation: efficacy and adverse effects, 56 (21)

Uterine cervix, adenocarcinomas of, the epidemiology of an increasing problem, 486 (15)

Vaccination effectiveness and vaccine efficacy, evaluating, by means of case-control studies, 77 (16)

Vaccine efficacy, 212 (10)

Vaccine efficacy, vaccination effectiveness and, evaluating, by means of case-control studies, 77 (16)

Vaccine evaluation, use of the case-control approach in: efficacy and adverse effects, 56 (21)

Vaccine field studies, design and interpretation of, 73 (21)

Vaccine, inactivated poliomyelitis, Francis field trial of: background and lessons for today, 7 (21)

Vaccine, pertussis, reactions to, and epidemiology of pertussis, 243 (14)

Vaccines, combination: issues in evaluation of effectiveness and safety, 89 (21)

Vaccines, evaluation of, for the prevention of pneumonia in children in developing countries, 43 (21)

Vaccines, rotavirus, for infants, public health considerations for the introduction of new: a case study of tetravalent rhesus rotavirus-based reassortant vaccine, 24 (21)

Vascular disease, oral contraceptives and, (Update), 241 (11)

Vascular disease, oral contraceptives and, 95 (4)

Vascular effects of chronic arsenic exposure, 184 (16)

Venous disorders, epidemiology of, in the general and occupational populations, 294 (19)

Vibrio cholerae, non-O group 1, 179 (12)

Vietnam, military service in, long-term health consequences of, 1 (11)

Violent behavior, evidence bearing on mental illness as a possible cause of, 172 (17)

Virus susceptibility, genetic determinants of, 115 (3)

Vivax malaria, immunity in, 109 (11)

Water, drinking, magnesium in, and ischemic heart disease, 258 (19)

Water, health benefits from improved, in developing countries, 117 (8)

Waterborne transmission, epidemiologic aspects of human cryptosporidiosis and the role of, 118 (18)

Weight gain, gestational, and body weight changes after pregnancy, epidemiology of, 261 (21)

Weight, birth, consumption of marine n-3 fatty acids during pregnancy as a possible determinant of, 399 (15)

Weight, body, changes, gestational weight gain and, after pregnancy, epidemiology of, 261 (21)

Whooping cough, whooping cough vaccine and, 1 (4)

Wilm’s tumor, etiology of, 415 (17)

Women’s health, menstruation, epidemiology of, and its relevance to, 265 (17)

Women, premenopausal, bone mass in, epidemiology of, 374 (15)

Work conditions as explanations for the relation between socioeconomic status, gender, and psychological disorders, 120 (17)
